HYDES BI-MONTHLY SEASONALS RANGE 2025

HYDES 1863
GREATER MANCHESTER BEER

XPA

Alc 4.0% Vol

Available January

A blonde ale brewed with flaked rice & extra pale ale malts. It is hopped, in generous proportions, with US Cascade.

The outcome is a refreshing beer with strong citrus fruit characteristic, lingering on the tongue.

MILD

Alc 3.4% Vol

Available March

Brewed with brown & best ale malts to give a rich tasting brown mild ale.

Hopping rates are relatively low using British Fuggles & Goldings to give a gentle, spicy bitterness with a velvety mouthfeel.

IPA

Alc 4.4% Vol

Available May

A beer with a pale golden glow brewed with Vienna & Cara malts for colour & flavour.

Emperor hops are used as the main variety to give a light, citrus & floral characteristic to taste & aroma.

RED

Alc 4.5% Vol

Available July

A ruby coloured ale produced with dark Muscavado sugar with a small addition of Red X ale malt.

The result is a wonderfully flavoured beer with malt, caramel & hints of liquorice flavours.

STINGO

Alc 6.0% Vol

Available September

Our Stingo beer has a robust & intense character. The higher alcohol content adds to its strength & complexity.

The hop bitterness is another defining feature, providing a bold & sharp flavour profile.

IMPERIAL

Alc 5.2% Vol

Available November

The main characteristics of this Porter are the smoky flavours with the taste of roasted coffee & chocolate.

The black malts & roasted barley used in brewing this beer also add slight hints of molasses, raisins & liquorice.
